

INTERGRID® MUNTIN SYSTEM

The Intergrid Roll Forming Muntin System consistently turns flat, pre-painted, coiled metal into formed, punched and cut muntin bars

PATENTED MUNTIN PROCESS

Patented prepunch process ensures crisp high quality muntins

FEATURES

- ▶ On demand integrated manufacturing of exact size muntin assemblies, 2200 per shift
- ▶ Fully integrated software system
- ▶ One touch remakes and rush units
- ▶ Patented pre-punch design with component sequencing
- ▶ Two Tone material grid capabilities
- ▶ LeanNet® compatible

BENEFITS

- ▶ Eliminates waste, shortens lead times and improves product quality
- ▶ Exactly matches muntins with cut glass and spacer sizes to reduce work in process
- ▶ Quick turnaround to reduce production bottlenecks
- ▶ Eliminates scratching and cleaning while ensuring easy assembly
- ▶ Differentiate your windows; multiple color pattern combinations
- ▶ Integrated sequencing of muntin units and one piece flow production including remakes

GIVING YOU GREATER CONTROL THAN EVER BEFORE.
